MIAMI, FL--(Marketwire - December 27, 2010) - CGAQ (PINKSHEETS: [CGAQ](#)) announced today its grand opening of the Galactic Night Club ensured success and is an asset to the new Casino Luperon location. The acquisition company has moved with certainty and its ability to project the great locations for its business model. Further, utilizing the same business model that consists of the local crowd supporting the day to day operating cash flow while the tourists create a bonus to its profitability, the location promises to be the exclusive entertainment and gaming company within a 40 mile radius. CGAQ has recently paved a new street entrance to its location to save local clients from the pre-existing, unlighted road and the additional mile of driving.

CGAQ Investor Relations Representative Tyler Cornell stated, "After personally visiting the location, it has well exceeded my expectations. Considering its beach front location, high class resort, high per capita tourist clientele, new street and it being the only entertainment within 40 miles, Mr. Swank has created another winning venture for investors. Further, the Galactic Night Club was overflowing with customers."

Due to inclement weather conditions, the casino's grand opening has been delayed shortly as its ceiling construction is a detailed process which could not be disturbed during the recent rain storms that were prevailing throughout the final week of renovations.

CEO Steven Swank stated, "As the Galactic night club filters in the crowds of customers from the respective community, CGAQ expects the gross margins of its new casino location to surpass that of its original location, the Sosua Bay Grand Casino. Although the weather has slightly delayed the renovations, we are looking forward to the final steps for completion and the Grand Opening to be held shortly thereafter. In between, the excitement of our future customers and the exposure to them is growing swiftly as they attend the night club."
