A month after surgery in Detroit for an undisclosed illness, soul diva/queen/high priestess [Aretha Franklin](#)

described her health as "superb." Franklin called in to Wednesday's "The Wendy Williams Show," telling the host she was

relaxing at a casino hotel in her hometown and hopes to begin traveling soon, saying she'll be "looking for a fabulous beach." Mmmm, beaches.

'Retha said she has two more weeks of downtime as she continues her recovery. She also promised to make up her missed concerts.

Are you planning to see Aretha Franklin when she hits the concert circuit again?
